FITTING SERVICES TO BE HELD FRIDAY EVENING, __AUG. 12.

In Court Yard. Lieut. Col. A. H. Gansser to be Principal Speaker.

The ex-service men of Crawford county are about to be honored by the public, thru the Board of supervisors, by being presented with emblems, or flags, in token of the esteem in which they are held by the people. The event promises to be a big one and will be featured by a number of prominent speakers and by Lieut. Col. A. H. Gansser of Bay City, who will give the principal address of the event

ning.

The services will begin at 7:00 o'clock in the court yard when Grayling's famous band will play a brief concert. After about three selections the speaking program will begin. This has not as yet, been fully ar-

GRAYLING WINS ONE AND LOS ES ONE.

Fast Hanson-Ward Team of Bay City Come Prepared to Clean-up on Grayling.

Two fast and exciting games of ball were those played on the local grounds last Saturday and Sunday when the Grayling M. C.'s met the fast Hanson-Ward team of Bay City. The locals lost Saturdays game by a score of 3 to 0 in a pitchers' battle between Gansser of the visitors and Johnson of the locals.

The visiting pitcher had the local boys at his mercy holding them to 3 hits and striking out 11 men, while Johnson let the visitors down to 7 hits and struck out 14 men. It seems that Grayling cannot get runs for Johnson when he works. They only having made one run for him in the

TO BEGIN WORK SOON.

The du Pont plant, that has been idle since January 1st, will begin operations again Monday, August 29th according to a statement by Superin tendent C. M. Morfit. He says that it will not be possible to take on a full crew at the start and that about half of the regular force will be put to work.

The Kerry & Hanson Flooring company plant has been idle since early in May. It had been kept in operation until there was no more room for storing the manufactured product and had to stop. Manager Fred Welsh announces that they shall start work again next Monday.

The opening of these plants will be good news to the employees and to the people of Grayling generally. This will put a large number of men back on a regular pay roll. During the enforced absence of the men many have taken on whatever work they tirely without work. There seems to be a general rejoicing among the employees that they are to get back to

had pitched the day before. At one time during the game the locals were leading by a 10 to 0 score, but the visitors slowly gained on the home boys until they tied the score in vinith. It looked then as though an overtime game would have to be played but the locals won out in the last half of the ninth, with three successive hits by E. Johnson, Laur-

A run was needed to win and the home guard soon showed them how it was done. The fans went away in happy spirits and the scene brought back memories of old games that were

BUTTER SHIPPED IN SUMMER

(Prepared by the United States Department of Agriculture.)

Parcel post shipments of butter are likely to be subjected to conditions. especially during the summer, which may cause deterioration and injure the quality of the butter. It is highly sirable, say specialists of the United States Department of Agriculture, that every possible precaution be taken before shipment Particularly is this true of farm-made butter, because conditions affecting its quality and as easily as in creameries. Farmmade butter, however, should be marketed just as satisfactorily as cream ery-made butter when it is properly nade and prepared for shipment.

It is Amportant, too, that these products be kept in a cool place. High temper-ntures should always be avoided, as they produce a soft, oily condition of the butter which is undesirable.

In manufacturing butter on the farm or in a factory the butternilk must poruled evenly. For the satisfaction of customers it is important that a t form quality of butter he produces

Methods used in preparing butte for parcel post shipping depend large ly upon the local conditions and style of package used. To insure deliver in the best possible state, butter, after being packed, printed and placed in cartons, should be chilled or hardened thoroughly before it is shipped. One of the most satisfactory ways of preparing butter for shipment is in

regular one-pound prints, ard print measuring 2% by 2% by 4% inches. Every pound print should be in regular butter parchment or paper. A second thick ness of such paper has been found to add materially to the carrying possibility of the butter. Waxed paper may a further protection to the print i should be placed in heavy manile paraffin cartons, which may be obtained from folding paper-bo panies; citier pinin or printed as a stock carton or with a special private

Some persons ship butter by parcel post in improvised or home-made con-miners. Clean, discarded, corrugated ranerhoard cartons are obtained from the grocer or other merchant at small cost or frequently without any cost at all. It is possible to cut a piece of paper board in such shape and size that when it is folded it will form a entisfactory carton.

LIKE FEEDING COWS IN DARK

Wisconsin Farmer Praises Cow-Test ing Association as Guide-Board to Better Dairying,

"When I hought my farm two years ago there was a herd of scrub cows on it." writes a Wisconsin farmer to a field agent of the dairy division, United States Department of Agriculture. I joined the cow-testing associ-ation, and soon found that my scrub cows were a failure, so I disposed of them and bought some purebred and grade Holstein cows. The com-testing association is a guide-toard on the way to better dairying and a big saving in feeds, as one can feed to so much better advantage where the production is known. Trying to feed without records of your cows is like feeding in the dark."

The Fastest Selling Tire

In America

The increasing popular demand for the Firestone Standard 30x3½ inch tire over a period of years has given us big volume. Our Plant No. 2 devoted wholly to this size tire with a capacity of 16.000 tires and 20,000 tubes per day cuts costs on every operation.

On May 2, we dropped our price to \$13.95 passing on to the car owner the full benefits of this big sales volume and this labor-saving plant. This tire has been our standard for years—for plies long staple fabric—extra gum between plies—heavy non-skid tread. The greatest value ever offered car owners. Inist on Firestone.

Our Cord Tire Values

Firestone Cord tires are made exclusively in Plant No. 1. Our process of double gum-dipping each ply of cord gives thicker insulation. The massive non-skid tread, with extra-thickness where wear is most severe, gives real effectiveness in holding the car against slipping and adds many extra miles of service.

Firestone Cord tires are sold at the lowest prices in cord tire-history: 30x3/2, \$24.50; 32x4, \$46.30; 34x4/2, \$54.90.

campaign of the American Legion has begun, and reports received at the nalional headquarters at Indiana; dicate that the purpose of the cam naign, to double the membership, wil omplished.

To double the membership of the Legion was the ardent wish of F. W. Gathraith Jr., late national comman der, who was killed in an automobile accident at Indianapolis. His successor, John G. Emery of Grand Rapids, Mich., was probably the first member of the Legion to get a member when the present campaign opened.

Mr. Galbraith planned the campaign short time before his death. He was unxious to have the memb doubled by October. It now appears that the campaign will end before that time. In his statement setting out plans

for the campaign, Mr. Galbraith said; "The Legion has earned the right to do-something in a national way pri marily in the interests of its organization, and the time has come to exercise that right. I propose that the American Legion shall exactly double its meinhership. A tremendous undertaking you say. Yes, tremendously simple. Just an intensive effort when every Legion member in the world shall go out, lay a firm but friendly hand upon a buddy and sign him up. Every member get a member—and the job is done."

Kitty's parents had many quarrels over her prospects. Her mother fa-vored the brilliant Vrousky; her father said "Levin was worth a thousand men." Kitty, herself, had set her men. Kitty, herself, had set her heart on Vronsky, although fond of Levin. In due time she experienced the pleasing pain of refusing Levin, but, to her chaggin and deep humiliation, the proposal from Vronsky did not materialise. The latter did not dream that his attentions to her were regarded seriously. They met constantly in society.

Anna called all the forces of reason—

prudence, pride, to her aid, but she ould not conceal the rapture she felt n Vronsky's presence. Her intimates became extremely interested. This was, indeed, an affair after their own hearts. According to their code, any conventions were observed. Karenin coolly pointed-out-the-danger of her course. He assured her he looked upon jealousy "as a humiliating and wounding sentiment." (Anna would have tion.) His spineless attitude enraged her and by the end of a year she and Vronsky had become all in all to each other. They had but one object in life to be together.

WOMEN OF MIDDLE LIFE

A Dangerous Period Through Which Every Woman Must Pass

Practical Suggestions Given by the Women Whose Letters Follow

know what Lydis E. Pink-ham's Vegetable Compound has done for me. During the Change of Life I was in bad nas done for me. During the Change of Life for lysh in bad for eight months and had two good douters treating me but they did me no good. A friend advised me to take Lydis E. Pinkham's Vegetable Compound, which I did, and in a short time I felt better. I had all kinds of bed spells, but they all left me. Now when I feel weak and nervous I take the Vegetable Compound and it always does me good. I wish all women would try it, during the Change of Life for I know it will do them good; If you think it will induce some one to try the Vegetable Compound you may publish this letter. — Mrs. A. KELLER, Afton, Tens.

Mrs. Mary Lister of

"It is with pleasure that I write to you thanking you for what your wonderful medicine has done for me. I was passing through the Change of Life and had a displacement and weakness so that I could not stand on my feet and other annoying symptoms. A friend told me about Lydis E. Pinkham's Vegetable Compound and the first bottle helped me, so I got more. It cured me and I am now doing my housework. Your medicine is certainly woman's friend and you may use this testimonial as you choose."—Mrs. Mary Lierar, 608 Frank Street, Adrian, Mich.

Olt is said that middle age is the most trying period in a woman's life, and owing to modern methods of living not one woman in a thousand passes through this perfectly natural change without experiencing very annoying symptoms. Those smothering spells, the dreadful hot flashes that send the blood rushing to the head until it seems as though it would burst, and the faint feeling that follows, as if the heart were going to stop, those sinking or disry spells are all symptoms of a nervous condition, and indicate the need for a special medicine.

Lydis E. Pinkham's Vegetable Compound is a root and herb medicine copcially adapted to act upon the feminine system. It acts in such a manner as to build up the weakened nervous system and enables a woman to pass this trying period with the least possible annoying symptoms. Women everywhere should remember that most of the commoner aliments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious aliments readily yield to Lydia E. Piskham's Vegetable Compound, as it acts as a natural restorative and often prevents
